

Company profile

Think offensive. Secure what's next.

www.cyfidex.com

A fast-rising security company, built for outsized impact.

Cyfidex is a young, AI-native cybersecurity company on the rise. We are building fast around one mission: finding what attackers would find first, before they do.

We focus on real-world impact, not checklists. Expert-led offensive testing, email security validation and compliance automation come together in one ecosystem.

01

Impact first

We prove what an attacker could actually do, not just what a scanner flags.

02

AI-native

Autonomous testing that works at the speed of change, guided by experts.

03

Built to be trusted

Clear reporting, honest scope and a partner that stays involved.

Vision and mission

■ Vision

To become one of the world's most trusted cybersecurity consulting and technology companies, recognized for delivering innovative, intelligent, and business-driven security solutions that protect organizations against evolving cyber threats while fostering trust in the digital world.

■ Mission

At Cyfidex, our mission is to simplify cybersecurity by delivering comprehensive security assessments, compliance consulting, AI-powered security solutions, and email security services. We partner with organizations to reduce cyber risk, strengthen resilience, and build secure digital ecosystems through expertise, innovation, integrity, and continuous improvement.

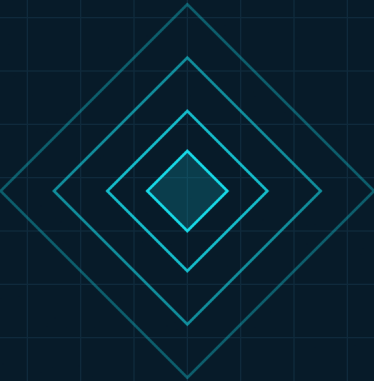

What we do

Expert-led offensive security

01 Web & API Security	02 Mobile App Security	03 Network & Infrastructure
04 Cloud & Attack Surface	05 Red Teaming	06 AI & Agentic Security

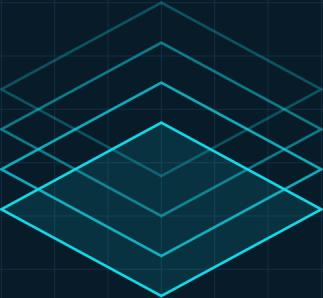

Email Security Validation

Our Email Validation solution helps businesses improve email quality, increase campaign effectiveness, and protect their sender reputation by verifying email addresses before they are used.

01	■ Coming soon	Features	Benefits
		Detect invalid and non-existent email accounts	Improve email deliverability
		Syntax and domain validation	Reduce email bounce rates
		MX Record validation	Increase marketing campaign ROI
		SMTP verification (without sending emails)	Protect sender reputation
			Enhance customer engagement

Autonomous Penetration Testing

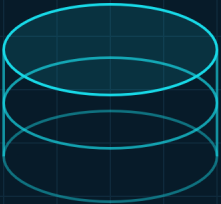

Our solution leverages intelligent automation and AI-driven analysis to continuously identify, validate, and prioritize security vulnerabilities across applications, APIs, cloud environments, and network infrastructure. By combining automation with expert methodologies, organizations can accelerate security assessments, improve coverage, and reduce the time required to identify critical risks.

02	■ Coming soon	Features	Benefits
		AI-driven vulnerability discovery	Reduce manual testing effort
		Autonomous penetration testing workflows	Improve security posture
		Risk-based vulnerability prioritization	Improve remediation efficiency
		CVE and OWASP Top 10 coverage	Reduce Mean Time to Detect (MTTD)

Compliance Intelligence

Multi-framework support

Our platform empowers organizations to streamline governance, automate compliance workflows, and continuously monitor adherence to regulatory and industry standards. Leveraging AI-driven insights, the platform simplifies complex compliance processes, reduces manual effort, and provides real-time visibility into organizational compliance posture.

03	■ Coming soon	Features	Benefits
		Continuous compliance monitoring	Simplify regulatory compliance
		Regulatory requirement mapping	Reduce manual compliance effort
		Compliance evidence management	Identify compliance gaps proactively
		Compliance task and workflow automation	Strengthen risk management
		AI-powered compliance recommendations	Improve decision-making with AI insights
			Build customer and stakeholder trust

Why choose us:

Our commitment extends beyond delivering cybersecurity services. We focus on understanding each client's business objectives and providing security solutions that are practical, scalable, and aligned with organizational goals.

Cybersecurity should enable business growth, not slow it down.

Our values:

- Professionalism
 - Transparency
 - Technical Expertise
 - Reliable Delivery
 - Long-Term Partnership
 - Client-Centric Approach
-

Thank you for considering Cyfidex as your trusted cybersecurity partner.

Not Just Security. Certainty.
